

## Tax Benefits of Homeownership

The tax deductions you're eligible to take for mortgage interest and property taxes greatly increase the financial benefits of homeownership. Here's how it works.

**Assume:**

\$9,877 = Mortgage interest paid (a loan of \$150,000 for 30 years, at 7 percent, using year-five interest)

\$2,700 = Property taxes (at 1.5 percent on \$180,000 assessed value)

\_\_\_\_\_

**\$12,577 = Total deduction**

Then, multiply your total deduction by your tax rate.

For example, at a 28 percent tax rate:  $12,577 \times 0.28 = \$3,521.56$

**\$3,521.56 = Amount you have lowered your federal income tax (at 28 percent tax rate)**

*Note: Mortgage interest may not be deductible on loans over \$1.1 million. In addition, deductions are decreased when total income reaches a certain level.*
